WASHINGTON, Feb. 16 .- (AP) President Roosevelt asked congress today to save the "American dream" of individual farm ownership.

Reporting that it is increasingly difficult for energetic young men to ascend the traditional ladder from hired man to tenant to independent owner, he proposed to bring federal millions to their assistance.

"Obviously action by the states and independently cannot cure the widespread evil," the President said in transmitting the report of his special committee on

"A nation-wide program under federal leadership and with the assistance of states, counties, communities and individuals is the only solution. Most Americans believe that our form of government does not prohibit action on behalf of those who need help.

2. Federal and state purchase and 2. Federal and state purchase and retirement of about 100,000,000 acres of poor crop land, and assistance to families moving from it to better farms. This would be carried forward at the rate of 2,000,000 to 5,000,000

acres a year.

3. "Modest loans" to prevent small farm owners fro mslipping into tenan-cy and to help tenants, croppers and farm laborers to increase their stand-ards of living. The committee said about 1,300,000 tenant and cropper families and members of other groups of "disadvantaged farm workers" needed such federal assistance. "Windfall" Tax Asked.

SELECTION OF TENANTS OF UNIVERSITY HOMES IS ORDERED BY ICKES

Negro Slum Clearance Project To House 675 Families; 1,000 Applicants.

With the University Homes slum clearance project nearly ready for occupancy, selection of tenants for the negro development was ordered yesterday by Public Works Administrator Harold L. Ickes.

The project will provide homes for 675 families, with more than 1,000 already registered. Tenant selection will be handled from an office established for the purpose in Room 414, 250 Auburn avenue, N. E.

The homes consist of 2, 3, 4 and 5room units. Rent on the two-room units vary from \$2.65 to \$3.10 per week, with a utility charge per week week, with a utility charge per week of \$1.20. Three-room units rent from \$3.45 to \$4.00 per week, with a utility charge of \$1.35. Four-room units rent from \$4.20 to 5.05 per week, with a utility charge of \$1.50. Five-room units rent from \$5.10 to \$5.95 per week, with a utility charge of \$1.50. Message of F. D. R. On Farm Tenancy

Half a century ago one of every four farmers was a tenant. Today, two of every five are tenants, and on some of our best farm lands seven of every ten farmers are tenants.

All told, they operate land and buildings valued at \$11,000,000,000.

For the past 10 years, the number of new tenants every year has been about 40,000. Many tenants change farms every two or three years, and farms every two or three years, and apparently one out of three changes farms every year. The agricultural ladder, for these Americans, has become a treadmill

OWNERS OF FARMS HAVE BEEN SLIPPING

At the same time, owners of family size farms have been slipping down. Thousands of farmers commonly considered owners are as insecure as tenants. The farm owner-operator's equity in his property is, on the average, 42 per cent, and in some of our best farming sections is as little as one-fifth.

When fully half the total farm population of the United States no longer can feel secure, when millions of our people have lost their roots in the soil, action to provide security is imperative, and will be generally

approved.

A problem of such magnitude is not solved overnight, nor by any one limited approach, nor by the federal government alone. While aggravated by the depression, the tenancy problem is the accumulated result of generations of unthinking exploitation of our aggicultural resources, both our agricultural resources, both probably due to "bad joints and the

RURAL RELIEF KNOWLEDGE TO BE OF GREAT VALUE

TO BE OF GREAT VALUE

In dealing with the problem of relief among rural people during the depression, we have already accumulated information and experience which will be of great value in the long-time program. It will be wise to start the permanent program on a scale commensurate with our resources and experience, with the purpose of later expanding the program to a scale commensurate with the magnitude of the problem as rapidly as our experience and resources will permit.

The special committee on farm tenancy emphasizes the necessity for action of at least four types: First. action to open the doors of ownership to tenants who now have the requisite ability and experience, but

URIC ACID?

Excess uric acid causes much suffering-from rheumatic pains, stiff joints, gout, etc. If you suffer from any of these your doctor has probably said that the caffeine in coffee is likely to aggra-vate your trouble. But "no caffeine" doesn't mean "no coffee."

You can enjoy coffee as zestful as any you ever used, if you change to Kaffee-Hag Coffee. Kaf-fee-Hag is real coffee, all coffee, fine coffee, 97% caffeine-free. Made by Kellogg in Battle Creek.

Engineering Honors Won by Bellingers

In Atlanta the name Bellinger as come to mean leadership in engineering.

L. F. Bellinger, of 1005 Spring-dale road, N. E., has been named vice president of the American Society of Civil Engineers, an honor held only by three other engineers in the nation.

held only by three other engineers in the nation.

His oldest son, Frederick, has been elected to membership in Sigma Xi, honorary scientific fraternity at Yale University. He was graduated from Georgia Tech with high honors in 1926 and took his master degree at Emory University. He will receive a doctor's degree in engineering from Yale this summer. Not to be outdone by father and older brother is L. D. Bellinger, who graduated from Georgia Tech with a mechanical engineering degree in 1929. He is now assistant mechanical engineer with the supervising naval inspector at Newport News and will make an inspection cruise on the new aircraft carrier Yorktown in April.

Repeal Bill Forbids Drinking at Football Games, Assemblies.

RALEIGH, N. C., Feb. 16 .- (A)-RALEIGH, N. C., Feb. 16.—(P)—
The senate passed the county option liquor bill late today after adopting several minor amendments to the measure. There was no record vote.
The bill, previously passed by the house, was returned to the house for approval of amendments. Legislative leaders said the lower body probably would act on the proposal tomorrow and that it would be ratified into law by Thursday.

and that it would be ratified into law by Thursday.
Under the measure, each county could call for elections on the creation of liquor stores.
The bill was passed by the senate after an amendment calling for a state-wide referendum on the liquor question was defeated, 27 to 17.
The adopted amendments would:
1. Prohibit drinking at football games or at any other public assembly.

WASHINGTON, Feb. 16.—(P)—
Former Governor Paul V. McNutt, of Indiana, told newsmen today, after a White House call, that he would give an "answer" to President Roosevelt tomorrow—but wouldn't say on what. McNutt warned the reporters who surrounded him as he left the executive's office against speculating, saying they might be surprised. That, however, did not stop the speculation.

The former Indiana Governor whose white hair frames a youngish face, has been mentioned for several diministration posts. Among them are secretary of war and high commissioner to the Philippines.

He also has been suggested for the presidency of the University of Indiana and for appointment to the senate in event Senator Minton, Democrat, Indiana, is made a federal judge.

SHEPPARD WAR PLAN FAVORED BY JOHNSON

WASHINGTON, Feb. 16.—(P)—General Hugh S. Johnson, former NRA administrator and a World War general staff officer, said today he preferred the Sheppard war profits bill to other proposals for war-time conscription.

Johnson, testifying before at sen-ate judiciary committee, said, how-ever, there was "very great doubt" in his mind as to the wisdom of at-tempting such legislation in advance

of war.

The bill, by Chairman Sheppard,
Democrat, Texas, of the military committee, would give the government
power to conscript manpower and to power to conscript manpower and to control industry in time of war. It would place a 95 per cent tax on all income above the previous three-year average. Another measure by Senator Nye, Republican, North Dakota, Johnson said, would "destroy the prof-it system." He called it "dangerous. The general told the committee any mobilization bill should lay down only broad principles.

CHICAGO, Feb. 16.—(P)—A lot of people won't believe him, but Dr. H. W. Oppice insists it's mostly imagination you feel when the dentist goes to work.

To overcome it, Dr. Oppice, teacher in the dental department of Loyola University, said today at the Chicago Dental Society convention, dentists are using psychology and technique—70 per cent psychology and 30 per cent technique.

"Actually there is very little pain in modern dentistry," he said. "The vibration of the drill gives a sensation which registers fear in the brain, but the anticipation causes more pain than the operation."

Chairman Sumners, of the house judiciary committee, has been publicly implying that he has some very secret information on the subject. His colleagues suspect him of giving his information too much weight. It helps his retirement bill, which has now passed the house.

A member of the court told a congressman two years ago that three justices would probably retire, if congress would provide retirement at full pay. But this was before the current dispute arose. SELF-INSULT Many a southerner here stiffened when the news leaked that Mr. Roosevelt's farm tenancy report invited southern states to observe the constitution. The line it contained about the denial of the right of free assemblage to share-croppers sounded to them like a familiar left wing campaign speech.

The President's special committee fought bitterly over the insertion of this generalized insult. Names of committeemen who opposed it were given out, but no one named the committeeman who sponsored it.

The anonymous author seems to have been an assistant in the Resettlement Administration, Brooke Hays. That is not surprising in view of the fact that none but impassioned crusaders are allowed in that government bureau. But what is surprising is that he informed the committee he was speaking as a representative of the governor of a southern state, Governor Carl E. Bailey, of Arkansas.

Sometimes, on a clear night, when petty worries press too hard, I stand and gaze up into the star-flecked sky and transport myself, in imagination, into the illimitable realms of boundless space. Imagine I am resting upon some distant star, gazing at a pin point speck of light that is this atom of cosmic dust we cell the

It Is a Strange System of Justice That Rules in Favor of the Longest Knife By ROBERT QUILLEN

Isn't it about time for somebody with courage, good sense and authority to stop this tragic and wholly unnecessary business of solving

labor problems by force? Twice within two years the shipping interests and seamen have used that method. The first effort cost over a quarter of a billion dollars.

The present one has already cost more than half a billion dollars. The same method is being used now by workers in automobile plants in other industries, and the cost is equal to that of a major disaster. When large numbers of workers are unable to find jobs, we call a social tragedy. Yet men who have work deliberately invite that mis-

fortune and misery and declare it their only means of obtaining justice. If they and their employers were the only sufferers, the government and the general public might feel no interest except the hope that lustice and might would prove to be on the same side, but we are one community and all suffer together.

Loss of profits means less buying of materials and less work for producers. Loss of wages means less buying of goods and less paying of bills. Merchants, professional men and farmers suffer with the rest. And in the last accounting, the millions who are consumers must pay the business losses.

Next to war itself, this is the most stupid and inexcusable folly in

Men say that nations must settle their arguments by brute force because there is no power above them to compel arbitration. there is a power above workers and employers. Why isn't is used? The usual answer is that government cannot interfere without violating the rights of free men. Neither can it condemn private property, or force a citizen to serve on the jury, or enforce a quarantine without

violating such rights, yet it does these things because the public good requires it. Would policemen and firemen be permitted to strike? No; because

that would do great injury to the public. Well, just how much injury can men do before it becomes wrong? The truth is that so-called statesmen permit this tragedy to continue

because they are afraid of losing votes if they interefere. It is "political dynamite." But strikes can be prevented without injury to labor. There are

saner ways to protect the worker's rights. What if no citizen could appeal for justice without sacrificing three months' pay or profit? Would that make sense? Requiring employers and employes to solve their problems by force is no less foolish than it would be to require all litigants in civil suits to reach a verdict with their fists.

same time, its medicated vapors, released by body heat, are breathed in for

a minute-direct to the irritated air-passages of the nose, throat, and chest. This combined poultice-and-vapor action loosens phlegm—relieves irritation—eases the cough —helps break congestion.

During the night, VapoRub keeps right on working. Often, by morning the worst of the cold is over. **Avoids Risk of Stomach Upsets**

This safe, external treatment cannot possibly upset the stomach, as constant internal "dosing" is so apt to do.

Submarines are favored for launch

The modern torpedo is a kind of submarine boat which keeps going under water for a distance of from half a mile to six miles. The speed is from 30 to 40 miles per hour, and the power for the motor is supplied by compressed air. There is not likely to be a "hit" if the object fired at is more than a mile distant.

We might expect currents of water to turn the torpedo from its path, but it has rudders and also contains a gyroscope to keep it steady. The messenger of death is hidden from view, but a sharp-eyed observer may see a white streak left in the water by bubbles which rise while the compressed air is causing the little propellers to turn.

In early days people spoke of floating mines as "torpedoes," but the present type of torpedo dates from 1864. In that year a Scotsman named Robert Whitehead brought forth a torpedo which would propel itself. The Whitehead torpedo has been a standard design, but it has been greatly improved.

Georgia Battles to Insure Tourney Bid Against Auburn

He Fights Joe Louis Tonight

The much-publicized Jim Braddock-Joe Louis title fight at Chicago in June will be bombarded completely out of the picture should Natie Brown, curly-haired Jewish heavyweight, upset the Bomber tonight. Nor will it do Louis any good to have Brown stay the route with him a second time. They meet over the 10-round route at Kansas City. Louis couldn't put Natie away before, and Brown not only is confident of sticking out the 10 rounds tonight, but is one of those few who think he'll win.

AT KANSAS CITY

If Bomber Fails To Stop Brown, Prestige Will Further Slump.

KANSAS CITY, Feb. 16.—(P)—Joe ouis, suffering from dented prestige a result of his failure to knock out as a result of his failure to knock out Bob Pastor, will seek to straighten it out at the expense of Natie Brown when they meet in a scheduled 10-round bout here tomorrow night. Speaking in round numbers, Brown, who in 1935 stayed 10 with the Brown Bomber, declares he can do it again, but the idea is practically original with him. Nobody else thinks so, with the result odds on the fight are pro-

hibitive.

Matchmaker Frank Gatto boosted his estimate on the probable gate today from \$25,000 to \$30,000 or possibly \$35,000. Capacity is \$42,000. Louis will receive a 40 per cent cut, Brown 15 per cent. The advance today was about \$15,000.

Brown 15 per cent. The advance today was about \$15.000.

Brown's expressed confidence he
can stay the limit, and possibly win,
combined with his record of being
knocked out only twice in a career
dating back nine years, largely is responsible for the boom in interest, despite frank expressions of disbelief he

Skeptics pointed out that Louis is
on the spot. He must win by a quick
knockout or his gate appeal may drop
to a point where the Braddock board
of control would be without a fountain pen when it comes to signing for
the proposed title bout.

Louis is in the peculiar position
where a decision is a moral defeat. He
has earned a reputation as a bomber,

Only five northern states are represented on the Philadelphia Athletic ball club. And they supply only seven players.

THE DIXIE BRAND GROWS NUMEROUS.

It might be said this is no great recommendation for the southern baseball player, since the Philadelphia Athletics have gone nowhere to speak of in the American league race.

But the facts are that each major league club is seeking an increase in the number of its players developed south of the Smith and Wesson line.

Most of the stand-out figures of the present-day major league teams are from southern states. Bill Terry, Travis Jackson, Carl Hubbell, Schoolboy Rowe, Tommy Bridges, Luke Appling, Van Mungo, Diz Dean, Gerald Walker, Mel Ott, Bill Dickey, Johnny Allen, Harry Kelley and others whose names are in the headlines with something approximating frequency—all hail

There may be some dispute about including Oklahoma in the list, but the state was southern in the last romantic war we had—the War Between the States—and so it is a southern

Mr. Bus Ham, of the Daily Oklahoman, will not, I trust, object to this statement. The team from his town did rather well in winning the Dixie series from our own Atlanta Crackers. Which seems very accurately to label him with the Dixie brand. Baseball is the national game. The flavor is southern.

OUR OWN CRACKERS.

Our own rackers, who have four of Mr. Connie Mack's former players, will be heading for Panama City, on St. Andrews bay, before many more weeks are gone.

Mr. Earl Mann, the president of the club, is in New York concluding some unfinished baseball business. It is colder up here, he says, than a dog's nose.

I do not mean to imply baseball knowledge is lacking in other cities. But it is true that too many cities suffer from too much direction. In Atlanta Earl Mann runs the baseball club from the office. On the field Eddie Moore runs it. There is no interference one with the other. Earl Mann is in charge of everything but managing the ball club on the field. He is responsible for keeping a man there who can do the job. Earl Mann hires the manager.

MORE INTELLIGENCE.

It may be that this Cracker club of 1938 will be known for its intelligence.

Fish are plentiful at Panama City. It is a fishing center. And if it is true that fish are good brain food, then the Crackers will come back to Atlanta as mental giants. They should be able to outthink their rivals this year as well as outplay them.

They turn out some excellent fish dinners at the hotel where the Crackers will stay. And the opportunity is there for the boys to improve the machine within that bony structure

Stretch Drive of Alabama Captures Interest of Conference Fans.

By Jack Troy.

Tonight's game with Auburn may determine whether Georgia obtains a place in the annual Southeastern con-

And he shoved across The Inquirer with the news that Mr. Connie Mack is a-heading for Mexico City on Thursday with his ball club. And Mr. James Isaminger, of that paper, was writing that Mr. Connie Mack was taking along a whole passel of ball players from the more torrid states.

Connie Mack has the following ball players from southern states:

North Carolina—Pitchers Fred Archer, Herman Fink, Stuart Flythe, Lee Ross; Infielders Lovill Dean and Broadus Culler; Outfielders Clarence (Ace) Parker and Floyd Yount.

South Carolina—Pitcher George Turbeville.
Alabama—Outfielder Lou Finney and Pitcher Almon Williams.

Georgia—Infielders Lamar Newsome and Jack Peerson and Outfielder Russell Peters and Pitcher Luther Thomas.

Mississinai Pitcher Red Rullock

And went whether Georgia obtains a place in the annual Southeastern conference basketball tournament.

The home stretch comeback of Alabama, the surging drive of L. S. U. And a single game for Kentucky with Vanderbilt, seemingly makes it imperative that Georgia beat Auburn ton night or Tech Saturday night to make safe the invitation.

An even break in the last two conference games ought to get Georgia in. The Bulldogs would have a standing of well above 500 gained through playing a representative schedule.

If the teams, as reported, are selected largely on schedule, it may mean that Georgia by beating Auburn would knock the Tigers out of consideration. For four of the Tigers' victories were achieved over Sewance, the win-less Tigers of the mountain.

At any rate, tonight's game at Athens between Auburn and Georgia, is considered very important for both teams.

Georgia Tech has only one game

considered very important for both teams.

Georgia Tech has only one game left that will count in the tournament rating. That's the game with Georgia here Saturday night.

The Bulldogs have a chance to ruin the perfect conference record of the Jackets. The game will mean more than just that to Georgia, possibly, if Auburn should slip over a winning punch tonight.

This is, of course, the big week for all teams hovering on the border-line. The selections will be made Sunday. So, only games through Saturday night will count.

The big drive is on and there may be a few surprises before the firing ends. Alabama's stretch comeback is being watched with avid interest.

The Tide couldn't hope to gain a 500 average, but a great impression can be made. Georgia holds a victory over 'Bama. That should carry weight in the Bulldogs' favor should Coach Rex Enright's team stumble in the home stretch.

Only Sewanee, Florida, Tulane and Vanderbilt seem definitely out of the running. That leaves nine teams battling for eight places.

The remaining games of this week will determine which one of the nine stays home.

The Southern association really is up against a problem which may be a bit more acute than they realize.

Should the Atlanta Crackers come through to their third consecutive pennant, something no team has accomplished, interest in other cities would do a nose dive.

The argument that Atlanta has been superior in the past two seasons because of money spent, is quite untrue. The Atlanta club spent less money on players last season than perhaps.

GERMANY'S THREATS Glass Charges 'Spite' TO BEHEAD 'HOARDERS' BRINGS HEAVY INFLUX

Many Nazis Confess Sins, Return Funds Invested in Foreign Securities.

BERLIN, Feb. 16.—(P)—Colone! General Hermann Goering's threat to use the headsman's ax has brought back to Germany an estimated \$100.000,000 (250,000,000 marks), which had been hidden abroad from Nazi authorities. thorities.

Theoretically many Germans escaped having their heads cut off by confessing their sins before January 31, the deadline set by the generalissimo of the Nazl four-year plan for bringing back home money kept abroad.

All citizens who still have money abroad are subject to a decree which General Goering had the cabinet approve in December. It provides that "whoever knowingly and unscrupulously, out of sheer selfishness or other base motives, transfers his wealth to foreign lands or lets it remain there, and thus damages German economy" is subject to special trial, at which the maximum penalty is death.

Japanese 'Locates' 'Missing' Comet

TOKYO, Feb. 16 .- (A)-A Japa-

nese amateur astronomer reported today he had "located" the "miss-ing" Daniel comet. The astronomer, Shinichi Shimizu, informed the central meteorolo-gical observatory of his rediscovery of the comet, named for the Princeton University professor who discovered it first.

Shimizu, a chemist in the town of Shimada. Shizuoka prefecture, said he had photographed it suc-

cessfully.

(Astronomers at Harvard Uni-

versity said observation of the Dan-iel comet could properly be called a rediscovery as it had not been seen in any of its predicted rota-tion periods since it was first sighted in 1909.)

Atlantans Describe Mardi Gras As Greatest Spectacle of Times John L. Hopkins By Sally Forth.

IT was stupendous—colossal—magnificent—and that is no exaggera-tion of the recent Mardi Gras carnival in New Orleans. According to Mrs. Charles A. Stair, who has lived there for 25 years, it was the biggest festival in the history of Mardi Gras. The quaint French city was overflowing with visitors, and some sought shelter in hospitals and box cars. Nancy Stair was hostess to Julia Colquitt, Robyn Peeples and Anne Douglass, of Savannah, and Mrs. Richard Courts and Virginia Courts were guests of Nancy and her parents for several days. Nancy, who is an exceedingly popular belle in New Orleans, her native city, as well as Atlanta, her adopted home, afforded the Atlanta debs the most marvelous week of entertainment. Other Atlanta debbies participating in the glories of the week were Clare Haverty and Alice Davis, who were the guests of friends.

On their arrival the Stair party was immediately whisked from the hotel to the Orleans Club, where a luncheon was given in Nancy's

honor. That evening the out-standing ball of the Mardi Gras series took place, the Mystic Ball. The queen's court was composed of prominent matrons, and Mrs. Stair was included in the court. Eight debutantes were chosen to appear in Roumanian gypsy costumes and dance before the queen, and Nancy was one of the chosen few. After the colorful ball the queen entertained her court at supper, and Nancy and her guests went to the Country Club to attend a dance.

Came Monday and the Proteus Ball, at which Nancy was again honored at being asked to join the court of the queen. Nancy's sister, Mrs. James Lancaster, of Memphis, the former Marjorie Stair, was queen of this grand affair several years ago. queen this year was Mary Dart, is a good friend of Nancy's, and she and Katy D. Tack, who was a member of the court, will visit Nancy at Easter time. Mary gave an elaborate supper party after the ball at the St. Charles hotel for her court. She was tired after standing up so long, and she slipped off her pumps to rest her feet. When dinner was over, and the time came to lead the procession out of the dining hall, Mary felt for her slippers. "I can't get my shoes back on," she whispered fgantically to. Nancy. "Go on," Nancy whisper-ed, "I'll bring them for you." And so, in all her gorgeous array the queen of the Proteus Ball led the royal procession in her stock-

The brilliant Rex Ball highlighted the Tuesday calendar, and its ceremonies began in the morning. Nancy was a maid in the Queen of Carnival court, which was in-deed a compliment. The queen and her court reviewed the spectacular parade from the gallery of the Boston Club, that exclusive men's club. The King of Rex, A. Patterson, who is a brotherin-law of Mrs. A. H. Sterne, of Atlanta, made his dramatic entrance, and presented the queen with a gorgeous bouquet of flowers tied with the carnival colors, yellow, green and purple. The opening of spring is officially observed on this day in New Or-leans, and there was a perfectly lovely array of spring outfits and straw hats to be seen.

And on this eventful day the

Boston Club opens its doors to the opposite sex, and entertains royally at open house and an elaborate luncheon. Two orchestras played for dancing in the spacious rooms, and Nancy says it was simply wonderful. That evening both the Rex and the Comus Balls went into full swing in the same auditorium, separated only by a wall. At the magic hour of midnight the King and Oueen of Rex appeared at Comus, where they met the reigning heads, and then there was a grand march of the two courts. "It was perfectly thrilling," enthused Nancy. The Old Louisianne cafe was the next destination of the courts, and there they were entertained at an elaborate supper. And you should see the favor Nancy received at this party-a gold compact embossed with sapphires-and all real, too.

On Mardi Gras Day the entranced Atlanta girls dressed in costumes and went all around the city in a truck, which is the custom on this day. They finally wound up at the Country Club, where an open house was held, and their merry-making continued from 9 in the morning until 6 that evening. When they returned home Mrs. Stair expected them to be utterly exhausted, but instead they rushed in, all talking at once. Julia began jumping up and down, exclaiming, "I've never had such a wonderful time in my life!" And that is the way they all feel about their sojourn in the city of carnivals and fun.

POR the second time Charlotte Granberry, of this city, and Anne Bolling Graham, of Rome, have been selected as members of the May Court at Randolph-Ma-con College. The Georgia girls were voted this high honor for the 1936 court when they were

Company.

The mother of the groom-elect was
Miss Nina Cabell before her marriage to Mr. Hopkins, and is the daughter of the late Mr. and Mrs. William D. Cabell, distinguished Virginians. His father, Linton C. Hopkins, is a wellknown and brilliant Atlanta lawyer. Mrs. Prescott Bigelow, of Boston; Cabell Hopkins, Linton C. Hopkins Jr., and Charles Ellet Hopkins, of Atlanta, are the sister and brothers of the groom-elect.

The marriage of this prominent couple will be an event of the spring, after which they will establish resi-dence in Morristown.

When the ballot box was opened

last Saturday the students had again cast their votes in favor of Anne and Charlotte to attend the queen at the forthcoming May Court. Charlotte, who belongs to the Alpha Omicron Pi sorority, and

Anne, who is a Chi Omega, are counted among the most popular members of the school's junior class. In fact Charlotte was selected, on account of her scholastic record, as one of the 20 junior ushers at the beginning of the current school term. This coveted honor permits Charlotte the privilege of acting as an usher at the lectures given at the col-lege during the year by renowned speakers and at the brilliant programs presented by the nation's

Charlotte, who graduated from North Avenue Presbyterian school before enrolling at the Virginia institution, is a distinctive blonde, and Anne, who frequently visits Emma Middlebrooks here, is of the brunet type. Sally Forth can easily visualize just what a striking pair these Georgia belles will make attired in their court gowns and following the May across the campus of Randolph-Macon College.

A LTHOUGH John Hewlett and his bride, the former Lorraine Werlein, of New Orleans, had announced their engagement, their surprise elopement Mardi Gras night created quite a stir in the Crescent City. The rumor of their marriage leaked out and spread like the proverbial wild fire through the Mardi Gras festivities, and was announced while the hundreds of guests were dancing at the exclusive Mistick Krewe of Comus ball, which closed the festive social season. The ball was one of the most beautiful and glamorous balls ever given by the organization, with Miss Susan Buck, daughter of Mr. and Mrs. Charles F. Buck Jr., and a debutante of this season, as

Pretty Lorraine, who is a mem-ber of the New Orleans Junior League, is of the vivid brunet type with fair complexion and dark eyes fringed with heavy dark lashes. She met John Hewlett, a former Atlantan, while he was in New Orleans some time ago laying plans for the presentation of Colleen Moore Doll House which was presented under the auspices of the Junior League there. He is manager of the famous toy which will be in Atlanta next week under sponsorship of the Young Matrons' Circle for the Tallulah Falls school.

The young man in question is making \$125 a month. His wife-to-be is a college girl, but she does not plan a college girl, but she does not plan to go to work after they are married. She is looking forward to a home life of their own made richer and fuller because she will be contributing some of her time to community betterment endeavors. She is not planning on taking the place of a well-trained social worker, but she hopes to develop some local community activity that has been left untried because of lack of funds to pay a worker.

She is looking forward to a home life advancement might well go into such things as dish towels, table covers, pictures which will later find a place in their own furnished home. I envy the two the good times that are ahead of them.

Miss Peeples Weds John V. Summerlin

WASHINGTON, D. C., Feb. 16.—
Miss Helen Payne Peeples, daughter of Mr. and Mrs. Howell Cobb Peeples, of Washington, was married Saturday afternoon at 3:30 to John Vandergrift Summerlin, son of the United States minister to Panama, George T. Summerlin, and Mrs. Blair Spencer, of Gloucester, Va. Only members of the two families were present.

The ceremony took place at the Washington Heights Presbyterian church, the Rev. John C. Palmer officiating. The bride wos a tailored suit and her only attendant was her sister, Mrs. B. W. Dudley II, of Summit, N. J., who was before her marriage in Warrenton, Va., last summer, the former Miss Jean Peeples. Lieutenant P. T. Seaborn was best man. After a two-month trip through Cuba, Panama and Hawaii, Mr. Summerlin and his bride will be at home at the American legation in Panama. The bridegroom serves as secretary to her father there.

Mrs. Summerlin's father is a former Atlantan and her mother is the former Miss Nan Payne, of Watrenton, Va., a niece of Mrs. J. Carroll Payne, of Atlanta, for whom the bride is named.

FACE FACTS.

If talking used all the facial muscles, we could talk our way into beauty. There are more than 50 muscles on the face, and talking uses only 14.

Smiling takes four major muscles and brings 11 others into play. Frowning uses two major muscles—but frowns make wrinkles!

The muscles of the cheek and jowl, which are most important to youth and beauty, are not used sufficiently in any of these movements to keep them firm. When the muscle resting on the cheekbone sags, the line from 10se to mouth is deepened, and when the platysma—the fanshaped muscle of the jaw—becomes flabby and embedded in fat, it gives an approximate the farming beaus, 1 cnp. their children's privileges?

BITTER PAT.

Answer: Haven't I told them? Haven't they been screamed at by teachers, psychologists, child hygienists, preachers and writers; from the printed page, the lecture platform, the pulpit, the radio and what-not? But they are deaf and can't hear. They are blind and can't see. They are dumb and can't understand. On such parents go with their stub-born defiance of everything that's said to them and at them.

If they had been on their jobs the question of privilege would never have arisen for their daughters would have played with boys from earliest childhood, made suitable friends among the boys whom the materials among the large materials. Mrs. David Marx Jr. was boys whom the parents knew and wel-comed to their homes. If they had been on their jobs the transition from boy playmates to boy-friends would have been so easy that nobody knew when the boys ceased to be one and became the other. If they had been on their jobs they would have seen for them-selves that companionship between the BUTTON-DOWN-THE-FRONT SPORTS FROCK BUILT FOR WEAR.

The best thing about sports frocks such as this one is that they are equally right on the tennis court and on the street. So even a housewife and a schoolgirl will find this a useful thing to slip into when warm weather threatens. The yoke and lapels give it a suggestion of shirtwaister. A neat buttoned pocket will prove useful for little things such as change and a powder puff. Buttoning down the front, it can be unbuttoned part way for

matter of their children's happiness they were supremely stupid.

For which stupidity they must pay. When fathers and mothers are old the thing that means most to them is to have their children re-member the home as being a happy one, remember them as being good and sympathetic parents. When they are old they are dependent upon their children for affection and at-tention, if not actually for support. Grown children can forget the pri vations of early poverty. They can forget the sting of punishments ad-ministered to them for wrongdoministered to them for wrongdo-ing. But they cannot forget the heartache and bitterness they knew when their parents made arbitrary rules in which they could see not justice and withheld sympathy for their childish sorrows.

Children born to poverty-poor par-ents must be denied many things that well-to-do parents can give their young. Children born to autocratic, stubborn parents must be denied many things, among them liberty, which a pair of sensible adults can give their children. This is pretty hard philoso-phy for a 17-year-old girl but she can comfort herself with the thought that it won't be long now until she's her

CAROLINE CHATFIELD.

My Day ELEANOR ROOSEVELT

WASHINGTON, Monday .- The White House seemed quite deserted this morning. Miss Jane Brett, who has been staying with me over the week end, and Mr. and Mrs. Earl Looker and their two daughters left this morning. Mr. and Mrs. Thomas M. Lynch and their small daughter left yesterday, and only the people who are here to attend the dinner Head and Homer Parris.

Hapeville Woman's Club will entertain the garden division of the Fifth for Mr. Farley tonight, Major Hooker and Mrs. Louis Howe, are still District G. F. W. C., February 26, at with us. Mrs. Greenway, who is attending the dinner, has gone to spend the night at the British embassy as the guest of Lady Lindsay, who is

another of her old friends here.

It was almost like summer out on the bridle path this morning, except for the fact that a little thin coating of snow lay here and there on the grass. The air was soft and warm, and there was no cold wind to make you suspect that winter is still just around the corner. Somehow, I have a hope that, for us down here, spring is really here for good!

The Woman's Council of the Washington Federation of Churches held its luncheon today at the Washington hotel, in the same room where the cause and cure of war conference has been held for the past few years. The meeting today was a peace-day meeting and this morning Senator Nye addressed the group. This afternoon Miss Josephine Schain, who has been at the international conference at Brussels and who spent some time lately in South America, will speak. She has succeeded Miss. Carrie Chapman Catt as president of the Cause and Cure of War group.

I sat there and looked at the room full of people and remembered that for many years the delegates from all over the country have barely filled it. Today the Washington women alone could fill it. It seems nothing short of marvelous. Mrs. Catt has been able to make her followers take great strides. All movements or crusades depend on the personality of some in-

dividual man or woman for their inception and early momentum. Some-one must care tremendously, and give unstintingly, before the idea takes sufficient root in a number of people's minds and goes forward without some tangible personality to give it interest. Mrs. Catt has done this for the peace movement among the women of this country and I think there is a contract the country and I think there is an alive and interested group today ready to give real thought to the question.

They should have the same kind of crusader among the men. It is

tradition that keeps men from being even more vitally interested in peace than women, for they are the first line of defense. Luckily, the youth of the nation, both men and women, are recognizing this fact, but I still think the older generation of men could be of great service if someone would arise to lead the gentlemen.

NEW YORK, Feb. 16.—(P)—The stock market climbed irregularly today.

Price swings were erratic throughout the session. Copper issues whirled off to a brisk advance during the forenoon, stimulated by new recovery highs for the domestic and foreign

metal.

Steels, after putting on a draggy performance during the morning, whittled down part of the early losses with the aid of what brokers described as short covering.

In the late trading, however, as some sectors of the market were recovering demand for coppers abated and this group slid off from earlier peaks.

Analysts were reluctant to place Analysts were reluctant to place firm interpreations on the market's quick changes of pace and direction. The action of the steels provided an example of the sudden shifts of Wall Street's frame of mind. At times, brokers said, these issues were depressed by profit-selling prompted depressed by profit-selling prompted by the recent brisk rises. occasions they stiffened, presumably on demand from quarters hopeful over the outlook for further gains for heavy industry.

Rails were comparatively indifferent to Wall Street estimates of a better than seasonal increase in freight loadings in the near future. Oils had the benefit of an improved statistical position for the industry. Some utilities were in favor toward the close. Rubber issues got a fillip from the swing of General Motors Corporation back to the production line.

Chrysler was a high-stepper among the motors, running up about 3 points, and closing at 132 1-2, up 2 1-4. General Motors was down 3-4 to 68 1-8. Shares up fractions to around a point or more were Kennecott at 61 3-4. Anaconda 56 3-4. Consolidated Edison 44 5-8. General Electric 60 3-4, Illinois Central 28, International Nickel 65 1-4. International Telephone 15, Sears-Roebuck 89 7-8, Standard Oil of New Jersey 73 1-8, Goodrich 42 3-8, Case 169 and Studebaker 19 1-8.

Down fractions to a point or more were Montgomery Ward at 62 1-2, American Telephone 180 14, Bethle-hem Steel 87 1-8, Radio 11 1-2, United States Steel 105 3-4. International Harvester 106. Republic Steel 34 5-8 and Soconoy Vacuum 18 7-8.

Measured by the Associated Press average of 60 shares the market was 0.1 of a point higher at 73.1. Transactions increased to 2.218,610 shares from 1,971,540 Monday.

Modest losses predominated in the bond market. Cotton closed 30 to 60 cents a bale lower. Wheat finished 1-2 to 2 cents a bushel lower and corn was unchanged to down 7-8 of a cent. The pound sterling was up 1-4 of a cent to 84.89 3-4 and French francs gained 3-16 of a cent to 4.66 cents.

STOCK OPINIONS.

COURTS & CO.—It looks as if the market would do much better. There is not unlikely to be continued irregularity of movement. BEER & CO .- We are not convinced that

the list has completed its correction at this time, and would await a more definite test before reinstating commitments.

FENNER & BEANE—We still consider that the burden of proof as to near trend rests upon the constructive forces.

THOMSON & MCKINNON—Apparently the technical position is a little the better for the recent correction stocks have undergone.

COTTON OPINIONS.

COURTS & CO.—There is evidence of long liquidation in the March option and as soon as there is a letun of selling from this source, we expect the market to do better.

BEER & CO.—We favor purchases of cotton on state of the control of the cont ton on setbacks.

FENNER & BEANE.—Market acts like it may drag some lower while awaiting developments at Washington.

THOMSON & MCKINNON.—With speculative and trade interests indisposed to make new commitments at oresent, would confine purchases to the easy spots. fine purchases to the easy spots.

E. A. PIERCE & CO.—Further reaction should develop broadening in demand.

COURTS & CO.—We believe that with a little encouragement from abroad, wheat will do better.

BEER & CO.—We are still of the opinion wheat and corn will sell at higher levels.

FENNER & BEANE—On any further recession we look for good support and as the domestic situation is too strong to be ignored. domestic situation is ored.

THOMSON & McKINNON—Pending a resumption of hearier import buying, foreign markets are likely to show some further examess but the domestic situation warrants taking advantage of any sympathetic action here to nurchase wheat.

here to purchase wheat.

E. A. PIERCE & CO.—After further liqui-cation particularly of Liverpool, we believe wheat prices can resume the advance. COTTONSEED OIL.
FENNER & BEANE—Market looks as though it would rally a little further. Investing Companies.

Higher grade industrial and carrier issues were in little demand and declines of large fractions were recorded. Some of the industrial convertibles pushed forward for fair gains, but the market in these was wholly selective.

Among the rails Great Northern 4s were off 1 3-8 at 122 3-8, Atlantic Coast Line 4 1-2s dropped 1 1-8 at 95 7-8 and Santa Fe 4s at 110 1-2 were off 3-4. The New Haven issues were in contrast, the convertible 6s adding 2 1-4 at 58 3-4, while the 3 1-2 per cent debentures were 3 1-4 higher at 44. Gains of wide fractions were made by Erie 5s, 86 1-4; Illinois Central 4 3-4s, 77, and Rio Grande 4s, 34.

NEW YORK, Feb. 16.—(P)—Cotton sold off to new low levels for the current movement today under increased hedge selling and liquidation.

The market opened 3 points higher to 1 lower with steady Liverpool cables offset by scattered selling. After early orders had been filled the market commenced to sag under a larger volume of southern hedging apparently against loan cotton.

Western selling developed later in the session and toward the close increased offers through spot houses in May and July caused further declines. Demand was limited principally to the price-fixing on a scale-

Strike Halts Trading On Coffee Exchange

On Coffee Exchange

RIO DE JANEIRO. Feb. 16.—
(P)—The coffee exchange at Santos, where brokers are on a strike against what they term an "unwarranted boost" in prices, closed at the usual time today without a single transaction having been recorded. At Rio, 8,500 sacks changed hands for future delivery in a cautious exchange session. Traders here said the market gradually was returning to normal, but there came Oats, Corn and Rye Are Unchanged To Slightly Off in Chicago Pit.

Twin sisters who married at 14 and 15 years of age said tonight their first marriage were "all a missisters."

But the principle of the matter is all right, agreed Mrs. Louise M. Thomas and Mrs. Lois Caves, the sisters.

They think a girl "who is mature at the age of 14 or 15 has a right to marry if she meets a man she thinks she loves."

But marrying at the age of nine is another matter.

"That's too close to the cradle," they said. AUTHORIZE BOND ISSUE.

Atlanta Handling Flood Area Cotton

Recent floods in the Ohio and Mississippi valleys has caused a great increase in the amount of cotton sent to Atlanta for storage and sale, local warehouses revealed yes-

terday.

One local warehouse estimated 40,000 bales of cotton had been moved to Atlanta from the flood area. Most of the refugee bales, undamaged by the flood, were privately owned, having been moved here for market, it was said. Emergency crews have been called to work so the extra cotton can be moved.

win McKoy, young Atlanta artist, are currently on exhibition.

Aimed at dispelling "mystery" and "high-brow-ism," twin terrors of initiates into the realm of art, Mrs. Susie Lee Howard, of the library staff, and her associates have arranged an interesting selection of books for those who wish to pursue further their "free art course."

I andscapes, all of which have drawn high praise from other Atlanta artists, Mrs. Harold Bush-Brown and George Ramey.

His landscapes, "Cold Morning." "Segro Houses" and "Clay Banks," according to critics, are especially noteworthy for their freshness, clarity and brightness. Their design, too, is worthy of praise, and the drawing is vigorous and free.

"To so many persons, especially those who are perhaps viewing their first paintings, art is a word implying 'high-brow' and 'what's-it-allabout'?" said Mrs. Howard.

"And so, the idea came to us that we might be able to dispel much of this, and add greatly to one sknowledge of art and education in that field, simply by having a collection of books on art, in a handy place, which
